

The application form for participation in the current VIth international action (since the 27th of December 2011 y. the list of reporters is formed)

The organization _____ (the name of organization)
The sub. organization _____ (the name of subordinated organization)
The division _____ (the name of division)
The post _____
The scientific degree _____ The scientific rank _____ (the name of post) (the name of scientific rank)
The first name _____ (the name of scientific degree) (the name of scientific rank)
The middle initials _____ (the first name) (the middle initials)
The last name _____ (the last name)
The work address _____ (the country, index)
_____ (the city, street)
_____ (the house, cabinet or office)
The work phone _____ The work fax _____ (the work phone number) (the work fax number)
The work el. address of the inf. resource _____ (the work address of el. information resource WWW)
The work el. address of the el. post _____ (the work address of electronic post E-mail)
The home address _____ (the country, index)
_____ (the city, street)
_____ (the house, flat)
The home phone _____ The home fax _____ (the home phone number) (the home fax number)
The home el. address of the inf. resource _____ (the home address of el. information resource WWW)
The home el. address of the el. post _____ (the home address of electronic post E-mail)
The UDC and the name of report _____ (the codificator UDC of scientific report by the list of "The VINITY" or "The RAS")
_____ (the name of scientific report)

The multimedia projector _____ (it is necessary, it is not necessary)

The necessary additional equipment for the performance in "The NC", "The RA(N)S", "The IHEAS" and "The SIO "ACNS""

The basic sciences in "The NC" _____ (it is necessary, name of equipment)
The basic scientific area in "The NC" _____ (the abbreviation by the list of basic sciences)
The basic scientific section in "The NC" _____ (the abbreviation by the list of basic scientific areas)
The add. sciences in "The NC" _____ (the abbreviation by the list of basic scientific sections)
The add. scientific area in "The NC" _____ (the abbreviation by the list of add. scientific areas)
The add. scientific section in "The NC" _____ (the abbreviation by the list of add. scientific sections)
The post in "The SIO "ACNS"" _____ (the code of post, abbreviation by the list of posts)
The post in "The SRI "SFA CMT"" _____ (the code of post, abbreviation by the list of posts)
The post in "The SF "SFA CMT"" _____ (the code of post, abbr. by the list of posts)
The post in ""SPbEC" at "EAST"" _____ (the code of post, abbr. by the list of posts)

The own (basic) support employees (attendants) in "The NC", "The RA(N)S", "The IHEAS", "The SIO "ACNS"" and at "EAST" _____ (1-4 person(s) under the basic contract)

The external (add.) support employees (attendants) in "The NC", "The RA(N)S", "The IHEAS", "The SIO "ACNS"" and at "EAST" _____ (1-4 person(s) under the additional contract)

The quantity of places in ""SPbEC" at "EAST"" _____ (the quantity of places)

The pavilion _____ The section _____ The places _____ The posters _____ (the number of pavilion) (the number of section) (the quantity of places) (the quantity of posters)

The PCs _____ The notebooks _____ The LAN/Internet _____ The printer (M, B, L, other) _____ (the number of PCs) (the number of notebooks) (none, type of channel) (none, type of printer)

The necessary multimedia devices for the demonstration at "EAST" _____

The necessary spec. devices for the demonstration at "EAST" _____ (not necessary, the name of multimedia device: input, output, audio, video)

The quantity of places in the numbers of "The hotel "Karelia"" _____ (1-5 person(s) under the arrangement)

The quantity of places in buffet table at restaurant at hotel _____ (1-5 person(s) under the arrangement)

We ask to confirm Your arrival not later, than for 2 months prior to the beginning of the current VIth international action.

THE REGISTRATION OF PARTICIPANTS

The beginning of participants registration:
On the 27th of December 2011 y. from 11:00 till 21:00 in the organizing committee (at first, - in "The Nobel committee", organization-participant, at "The AUT CMT SFA", academicians of (natural) sciences (academicians of "The RA(N)S" A.N. Vetrov, in "The RA(N)S", "The IHEAS", "The SIO "ACNS"" The Government of The RF and The Administration of Saint-Petersburg city, at second, - in "SPbEC" named after L.I. Brezhnev" at "EAST" named after A.A. Sobchak and "The hotel "Karelia", ("Intourist hotel group").

The Opening and Plenary session of The VIth international action will take place in the boardroom of "The Nobel committee" (Norway and Sweden), "The RA(N)S" and "The SIO "ACNS"" (the main building) in the day of beginning in 10 h 30 min (it will be informed in addition)

1. The formal examination – the current package of documents.
2. The examination in essence – the materials of scientific reports and (or) multimedia-presentations are sent by mail from the chosen reporter of organization-participant and (or) the head of org.-participant to the addresses of org. committee ("The Nobel committee" (Norway) – 1 piece, "The Nobel committee" (Sweden) – 1 piece, "The Government of The RF" – 1 piece, The Administration of Saint-Petersburg city – 1 piece, "The RANS" – 1 piece, "The RAS" – 1 piece, "The AUT CMT SFA", acad. of (nat.) sci. acad. of "The RA(N)S" A.N. Vetrov – 1 piece) only after formal examination of the current package of documents and under the preliminary arrangement with the organizing committee only.

THE REQUIREMENTS, ORDER OF REPRESENTATION AND THE LIST OF NECESSARY DOCUMENTS SUFFICIENT FOR THE PARTICIPATION

The requirements, order of representation and projects of documents of the reporter and the organization-participant for the participation in the current VIth international action are submitted on the information-educational portal of "The AUT CMT SFA", a academician of (natural) sciences (academician of "The RA(N)S") A.N. Vetrov www.vetrovan.spb.ru and the information resources of organizing committee.

THE REQUIREMENTS TO REGISTRATION AND REPRESENTATION OF SCIENTIFIC REPORT AND MULTIMEDIA-PRESENTATION

The requirements to registration and representation of the scientific report and multimedia-presentation of reporter are submitted on the information-educational portal of "The AUT CMT SFA", a academician of (natural) sciences (academician of "The RA(N)S") A.N. Vetrov www.vetrovan.spb.ru and the information resources of organizing committee.

SUBJECTS:

1. The applied scientific results in "The Nobel committee" on 6 basic and add. sciences, scientific areas and scientific sections.
The direction 1.1. "Cognitive modelling in the natural sciences" ("NEA").
(The scientific areas "Applied physics; computer science, mathematics, mechanics, metrology, astronomy, (complex) system analysis, geography, electrical engineering, nuclear power, instrument making and other sciences").
1. Section "The applications of the (Cognitive) computer science, cybernetics, automatics, computer engineering, data transmission and connection" ("SIC").
2. Section "The applications of the mathematics, mathematical physics, mechanics, metrology, astronomy, space researches, complex system analysis, based on cognitive modelling technology and complex problems of natural sciences" ("SDF").
3. Section "The applications of the models of The Earth and The Solar system planets in the geography, geology, geodesy, cartography, astronomy, and other sciences" ("SNG").
4. Section "The applications of the system analysis based on cognitive modelling technology: prediction, standardization, unification and complex problems of exact technical sciences" ("SSAP").
5. Section "The applications of the theoretical and experimental physics, geophysics, power engineering, electrical engineering, electronics and radio engineering, nuclear physics, technics and instrument making" ("STI").
The direction 1.2. "Cognitive modelling in the applied technical sciences and technologies" ("NNTS").
(The scientific areas "Applied physics; nuclear and technology; mechanical engineering, bio-cinema-technics and branches of industry").
1. Section "The applications of the noosphere knowledge and technologies: the (heavy) mechanical engineering, instrument making, polygraphy, reprography and foto-cinema-technics, easy and food-processing industry, transport, architecture, construction and other branches" ("SNZ").
The direction 2. "Cognitive modelling in applied technical sciences and technologies" ("NNTS").
(The scientific areas "Applied chemistry; methods and technologies of extraction, processing and use of the rock, metal, tree and agricultural production").
1. Section "The applications of the mining and metallurgical" ("SGL").
2. Section "The applications of the sciences of wood and wood processing" ("SNPAK").
The direction 3. "Cognitive modelling in the geopolitical sciences and researches" ("NSGI").
(The scientific areas "Applied macro-economics; geopolitics, safety and history").
1. Section "The applications of the geopolitics and safety" ("SGT").
2. Section "The applications of the classical and military history" ("SMT").
The direction 4. "Cognitive modelling in the society steady development of postindustrial country" ("NURS").
(The scientific areas "Applied economics of country").
1. Section "The applications of the complex problems of country development" ("SPUR").
The direction 5. "Cognitive modelling in the social-economical and jurisprudential sciences" ("NSEPP").
(The scientific areas "Applied micro-economics; politics, law, market economy, management, sociology, statistics, financial analysis, book keeping, audit and other branches").
1. Section "The applications of the interbranch jurisprudential and economical system researches of society and country" ("SMELS").
2. Section "The applications of the complex problems of micro-(macro)economics, social sphere and market economy of the country" ("SMBE").
3. Section "The applications of the economics, management, sociology, statistics and their other branches" ("SES").
4. Section "The applications of the financial analysis, accounting and audit of the (credit) organization based on cognitive modelling technology" ("SFABCA").
The direction 6. "Cognitive modelling in the biological and medical sciences" ("NBME").
(The scientific areas "Applied physiology and medicine; vegetative and generative growth of plants and animals").
1. Section "The applications of the biology, ecology and physiology of plants" ("SBE").
2. Section "The applications of the biotechnology and biomedicine, ergonomics and labor safety of cognitive individuals" ("SBEI").
The direction 7. "Cognitive modelling in the humanitarian sciences, art and creativity" ("NGNOL").
(The scientific areas "Applied problems of peace; (cognitive) linguistics, (national) creativity, culture, art, religion, literature, science study, philosophy, journalism, (cognitive) psychology, education, science and young scientists, encyclopedias, innovations and investments").
1. Section "The applications of the (cognitive) linguistics, (national) creativity, culture, art and religion" ("SGN").
2. Section "The applications of the literature, science study, philosophy, journalism and mass communication means" ("SLP").
3. Section "The applications of the problems of (cognitive) psychology, education, science and supports of young scientists (the grants programs and others)" ("SPONIC").
4. Section "The applications of the innovations of project "The Russian encyclopedias", philosophy of science, technics and technology on branches of knowledge" ("SFR").
The direction 8. "Cognitive modelling in the physical training and sport" ("NFS").
(The scientific areas "Applied medicine and physiology; physical training and sport").
1. Section "The applications of the sport, sport sciences and actions" ("SSNA").
The direction 9. "Cognitive modelling in the military sciences" ("NSM").
(The scientific areas "Applied military physical, chemical and other methods and technologies; architecture, construction, history and problems of peace, literature, education, history and problems of peace").
1. Section "The applications of the architecture, construction, technics, history, education, politics and economics in the armed forces" ("SASTOPEVC").

- II. The fundamental scientific results in "The Nobel committee" on 6 basic and add. sciences, scientific areas and scientific sections.
The branch 1. "Cognitive modelling in the mathematical sciences".
(The scientific areas "The great mathematical physics; mathematics, complex system analysis and (cognitive) computer science").
1. Section "The theory of the mathematics and complex system analysis based on cognitive modelling technology" ("SM").
2. Section "The theory of the cybernetics and (Cognitive) computer science" ("SPM").
The branch 2. "Cognitive modelling in the physical sciences" ("OFN").
(The scientific areas "Theoretical astronomical and space physics, nuclear physics and physics of nuclear kernels").
1. Section "The theory of the physics; astronomy and space researches" ("SOA").
2. Section "The theory of the nuclear physics and physics of nucleus kernel" ("SIF").
The branch 3. "Cognitive modelling in the nanotechnologies and information technologies" ("ONIT").
(The scientific areas "Theoretical physics and physical chemistry; electronic components, computer engineering and connection, nanotechnologies, system analysis of physical objects, processes and phenomena").
1. Section "The theory of the electronics, radio engineering and connection" ("SVLISEB").
2. Section "The theory of the automatics, computer engineering and system analysis based on cognitive modelling technology" ("SITA").
3. Section "The theory of the nanotechnologies for the mechanical engineering, instrument making, polygraphy, reprography and foto-cinema-technics, transport, architecture and construction, the agricultural, wood, water, fish economy and aqua culture" ("SNM").
The branch 4. "Cognitive modelling in the exact sciences" ("OEMMPU").
(The scientific areas "Theoretical physics; mechatronics, mechanical engineering, metrology, power and electrical engineering").
1. Section "The theory of the (theoretical) mechanics and gyroscopes" ("SM").
2. Section "The theory of the mechanical engineering, instrument making and metrology" ("SMPM").
3. Section "The theory of the power engineering and electrical engineering" ("SE").
The branch 5. "Cognitive modelling in the industrial and chemical sciences; branches of industry and economy" ("SCHEI").
(The scientific areas "Theoretical chemistry; branches of industry and economy").
1. Section "The theory of the easy, food, wood and wood processing industries, the architecture and construction, the agricultural, wood, water, fish economy and aqua culture" ("SNM").
2. Section "The theory of the chemistry, chemical technology and chemical industry" ("SCHI").
The branch 6. "Cognitive modelling in the biological sciences" ("OBN").
(The scientific areas "Theoretical medicine; biology, pharmacology and physical-chemical biotechnology").
1. Section "The theory of the biology and pharmacology" ("SOB").
2. Section "The theory of the physical-chemical biotechnology" ("SFCB").
The branch 7. "Cognitive modelling in the fundamental medicine and public health services" ("OFPM").
(The scientific areas "Theoretical physiology and ergonomics; (private) physiology, public health services, labour safety, preservation of the environment and ecology").
1. Section "The theory of the physiology, biophysiology and private physiology" ("SFP").
2. Section "The theory of the medicute, public health services, labour safety, environment preservation and ecology of person" ("SMP").
The branch 8. "Cognitive modelling in the sciences about The Earth" ("ONZ").
(The scientific areas "Theoretical physics; geophysics, geology, mining, metallurgy, oceanology, structure and physics of atmosphere, geodesy, cartography and geography of The Earth and planets").
1. Section "The theory of the geophysics, geology, mining and metallurgy" ("SGL").
2. Section "The theory of the oceanology, structure and physics of atmosphere, geodesy, cartography and geography of The Earth and planets" ("SOG").
The branch 9. "Cognitive modelling in the social sciences" ("OON").
(The scientific areas "Theoretical micro-economics and problems of peace; social science, philosophy, science study, politics, sociology, (cognitive) psychology, state, law, patent business, invention and rationalization work, economics, organization, management, statistics and financial analysis").
1. Section "The theory of the social sciences, philosophy, science study, politics and political sciences, sociology, (cognitive) psychology, state, law and jurisprudence, patenting business, invention and rationalization work" ("SFP").
2. Section "The theory of the economics and economical sciences, organization, management, statistics and financial analysis based on cognitive modelling technology" ("SE").
The branch 10. "Cognitive modelling in the global problems and international relations" ("OGPMO").
(The scientific areas "Theoretical macroeconomic and problems of peace; demography, pedagogics and national education, standardization, regional geography, science study and manufacture, cultural science, art criticism, journalism and mass media, religion, trade, tourist-excursion service, trade").
1. Section "The theory of the demography, pedagogics and national education, standardization, complex studying of separate countries and regions, general and complex problems of natural, exact, technical, social, applied, sciences and manufacture branches" ("SGP").
2. Section "The theory of the culture and cultural science, art and art science, mass communication, journalism and mass media, religion, internal trade and tourist-excursion service, external trade, transport, housing-communal services, housekeeping and consumer services at international level" ("SMO").
