## THE REGISTRATION OF PARTICIPANTS

*The beginning of participants registration:*

*On the 01<sup>st</sup> of May 2018 y. from 11:00 till 21:00 in the organizing committee (at first - in the organization-participant and "SPbSU"; at second - in "The hotel "Moscow" ("The group of hotels "Intourist")).*

*The Opening of the international action and the meeting of "The dissertation council" of "SPbSU" will take place in the boardroom of SPbSU (the main building) in the day of beginning in 11:30 min (it will be informed in addition)*

*1. The formal examination – the specified package of documents;*

*2. The examination in essence – the materials of question and (or) scientific reports and (or) multimedia presentations, are sent by mail from the chosen member of "The diss. council" from the organization-participant and (or) the head of organization-participant to the addresses of org. committee ("SPbSU" (RF, Saint-Petersburg city) – piece and "AUT CMT SFA" Vetrov A.N. – 1 piece) only after the formal examination of the specified package of documents and under the preliminary arrangement with the organizing committee only.*

## ORGANIZING COMMITTEE

1. "The President of The Russian Federation" Putin Vladimir Vladimirovich ("The Executive office of The President of RF") and "The Presidents of the foreign countries" ("The Executive offices of The Presidents of the foreign countries").
2. "The Chairman of The Government of The Russian Federation" Medvedev Dmitry Anatolyevich ("The Executive office of The Government of RF") and "The Chairmen of The Governments of the foreign countries" ("The Executive offices of The Governments of the foreign countries").
3. "The Administration of Saint-Petersburg city" ("The Executive office of The Government of Saint-Petersburg city") and "The Administrations of others cities" ("The Executive offices of The Governments of others cities").
4. "The International Higher education academy of sciences".
5. "The Russian academy of (natural) sciences".
6. "The President of SPbSU" "The honorary worker of higher education of Russia" "The honorary doctor of The Russian and foreign universities (HEIs)" "The honorable citizen of Saint-Petersburg city", The President of "The Russian academy of education", academician of sciences ("RAE"), doctor of philological sciences, professor Verbitskaya Lyudmila Aleksandrovna.
7. The rector of "SPbSU", the chairman of "The sci. council of SPbSU", "The honorary worker of justice of Russia", the chairman of "The authorized court of Saint-Petersburg city", the deputy of chairman of "The council on science and education at The President of RF" doctor of jurisprudential sciences, professor Kropachey Nikolay Mikhaylovich.
8. The national (residents) and foreign (nonresidents) members of "The dissertation council" of "SPbSU".
9. The person using the right of international defence, the real author, the head, the executor, the legal owner and potential patentee of the unique cognitive modelling technology and the scientific direction "Cognitive computer science, cognitive modeling, technology for the system and financial analysis" ("AUT CMT SFA") Vetrov Anatoly Nikolaevich: the objects and subjects of research: the information-educational environments (credit) organizations and objects of theoretical mechanics on spec. 05.13.01, 05.13.10, 19.00.03 (technical sciences), on spec. 08.00.10 (economic sciences), on spec. 01.02.01 (physical-mathematical sciences), researches in the field of physical chemistry (spec. 02.00.04) and molecular biology (spec. 03.00.03) are conducted.

## THE WORKING LANGUAGES

The national language – Russian language (The Russian Federation).  
The international language – English language (The United Kingdom of Great Britain and Northern Ireland).  
The synchronous translation from the national Russian language into the international foreign English language.

## THE REQUIREMENTS, ORDER OF REPRESENTATION AND THE LIST OF NECESSARY DOCUMENTS SUFFICIENT FOR THE PARTICIPATION

The requirements, order of representation and projects of documents of the member of "The diss. council" and the organization-participant for the participation in the specified international action are submitted on the scientific-educational portal of "AUT CMT SFA" Vetrov A.N. www.yetroyan.spb.ru and the information resources of organizing committee.

## THE REQUIREMENTS TO REGISTRATION AND REPRESENTATION OF SCIENTIFIC REPORT AND MULTIMEDIA-PRESENTATION

The requirements to registration and representation of the question and (or) scientific report and (or) multimedia-presentation of the member of "The dissertation council" of "SPbSU" are submitted on the information-educational portal of "AUT CMT SFA" Vetrov A.N. www.yetroyan.spb.ru and the information resources of organizing committee.

## SUBJECTS:

1. **The fundamental scientific results of "AUT CMT SFA" Vetrov A.N. on basic and add. sciences, scientific areas and scientific sections. Introduction. The fund. bases of the cognitive modeling technology for the system analysis of the inf.-educ. environment [slides 1.1-1.7].**
  - 1.1. The existing contradictions, the aspects of inf. and the relevance of res. [slide 1.1.1].
  - 1.2. The purpose, the object, the subject and the methods of research [slide 1.1.2].
  - 1.3. The tasks of research (dissertation research) [slide 1.1.3].
  - 1.4. The scientific results of diss. research, submitted on defence [slide 1.2-2].
  - 1.5. The reliability of the scientific results of diss. res. and publications [slide 1.2.3].
  - 1.6. The scientific aspects of informatization of the inf.-educational environment and the theoretical-methodical base of research [slides 1.3.1-1.3.2].
  - 1.7. The models and technologies of organization of interact of the subjects and means of training for a solution of the problem of adaptation in the inf.-educ. environment [slides 1.4.1-1.4.2].
  - 1.8. The complex approach to the synthesis of the inf.-educational environment based on the parametrical cognitive models block [slides 1.5.1-1.5.2].
  - 1.9. The main requirements presented to the structure of CMT and the structure of CM of subject of training and means of training [slides 1.6.1-1.6.2].
  - 1.10. The genesis of "Cognitive computer science, the cognitive modeling technology for the system and financial analysis" as new (academic) scientific direction according to the decision of The President of the Russian academy of natural science the protocol №699 from the 08.06.2018 y. [slide 1.7].
2. **The first scientific result. The structure of the inf.-educational environment and the principles (algorithms) of functioning of the components of the automated (remote) training system with the properties of adaptation based on the parametrical cognitive models block [slides 1.1-1.8].**
  - 1.1. The structure of the territorially distributed inf.-educational environment as the example of the geographically distributed (countries), regions and areas [slide 1.1].
  - 1.2. The standard scheme of interaction of the information centre of educational establishment and the AWP of the subjects of training [slide 1.2].
  - 1.3. The standard scheme of interaction of AWP of the subjects of the inf. environment of educational establishment [slide 1.2.2].
  - 1.4. The classification of the subjects of the information-educational environment.
  - 1.5. The principle of training in the technol. process of the formation of knowledge [slide 1.2.4].
  - 1.6. The classification of the practical methods of extraction and transmission of inf. (as the aggregate of knowledge) on the subjects of studying [slide 1.2.5].
  - 1.7. The modifications in the organization of the inf. environment of educational establishment for the support of accounting of the individuality of personality of the subjects of training [slide 1.3.1].
  - 1.8. The modifications in the technological process of the formation of knowledge at the realization of the automated personally-oriented training [slide 1.3.2].
  - 1.9. The comparison of modifications in the organization and technology of automated training for the realization of the contour of adaptation based on the parametrical cognitive models [slide 1.3.3].
  - 1.10. The structure of the information-educational portal [slide 1.4].
  - 1.11. The structure of the inf.-educ. portal of teacher (scientist): on the example of the scientific-educ. portal of "AUT CMT SFA" Vetrov A.N. in the foreign English language and the nat. Russian language [slide 1.4.2].
  - 1.12. The structure of the automated training system with the properties of adaptation based on the parametrical cognitive mode block [slide 1.5].
  - 1.13. The formal description of the structure of the automated training system with the properties of adaptation based on the cognitive model by means of the theory of automatic control [slides 1.6.1-1.6.3].
  - 1.14. The scheme, reflecting the principle (algorithm) of functioning of the basic and applied diagnostic modules [slide 1.7.1].
  - 1.15. The scheme, reflecting the principle (algorithm) of functioning of the electronic module with adaptation based on PBM [slide 1.7.2].
  - 1.16. The feature of structure of the adaptive electronic textbook [slide 1.7.3].
  - 1.17. The information structure of the subject of studying and [slide 1.7.4].
  - 1.18. The level of representation of inf. by means of the electronic textbook [slide 1.7.4].
  - 1.19. The method of realization of branching "correct answer" or "wrong answers" at the left (near) node and at the right branched model [slide 1.7.5].
  - 1.20. The algorithm of processing of events, initiated by the user [slide 1.7.6].
  - 1.21. The adaptive means of representation of inf. in the ad. textbook [slide 1.7.7].
3. **The second scientific result. The cognitive modeling technology [slides 2.1-2.7].**
  - 2.1. The iterative cycle of the cognitive modeling technology [slides 2.1-2.7].
  - 2.2. The technique of use of the cognitive modeling technology [slides 2.1-2.5].
  - 2.3. The recommended basis for the construction of the structure of CM [slide 2.3].
  - 2.4. In the view of the oriented graph combining the theory of sets [slide 2.3].
  - 2.5. The recommended basis for the construction of the structure of cogn. model in the view of the structural scheme (without connections between inf. elements) [slide 2.3].
  - 2.6. The representation of the str. of CM by means of the frame model [slide 2.3].
  - 2.7. The representation of the str. of CM by means of the semantic network [slide 2.3].
  - 2.8. The ontological scheme of DB for the representation of the structure of CM [slide 2.3].
  - 2.9. The algorithm of formation of the structure of cogn. model for the tasks of the analysis of the inf.-educ. environment of cat. training [slides 2.4-2.5].
  - 2.10. The technique of res. of parameters of CM of subject of training [slides 2.5.1-2.5.2].
  - 2.11. The technique of research of param. of CM of means of training [slides 2.6.1-2.6.2].
  - 2.12. The algorithm of processing of a post. results of testing [slide 2.6.3].
4. **The third scientific result. The parametrical CM block [slides 3.1-3.2].**
  - 3.1. The structure of the parametrical cognitive model of subject of training (the multilevel structural scheme combining the theory of math. sets) [slide 3.1].
  - 3.2. The structure of the parametrical cognitive model of means of training (the multilevel structural scheme combining the theory of math. sets) [slide 3.2].
  - 3.3. The structure of the modified model of reduced eye of human [slide 3.3].
  - 3.4. The structure of the modified model of reduced eye of human [slide 3.4].
  - 3.5. The structure of CM of chemical element (nuclear polymer) with two nucleus (plasmatic formations) in the view of the two-cognitive sphere [slide 3.5].
  - 3.6. The structure of CM of chemical element (nuclear polymer) with three nucleus (plasmatic formations) in the view of the three-cognitive sphere [slide 3.6].
  - 3.7. The structure of CM of chemical element (nuclear polymer) with four nucleus (plasmatic formations) in the view of the four-cognitive sphere [slide 3.7].
  - 3.8. The structure of CM of chemical element (nuclear polymer) with five (and more) nucleus (plasmatic formations) in the view of the five (and more)-cognitive sphere [slide 3.8].

## II. The applied scientific results of "AUT CMT SFA" Vetrov A.N. on basic and add. sciences, scientific areas and scientific sections.

- The forth scientific result. The complex of programs for the automation of research tasks of the inf.-educ. environment based on the param. CM block [slides 4.1-4.2].
- 4.1. The structurally-functional scheme of the complex of programs [slide 4.1].
  - 4.2. The automation of research tasks [slide 4.1].
  - 4.3. The algorithm of primary initialization of DB and switching of the modes of func. of the complex of programs for the aut. of tasks of the system analysis [slide 4.1-4.2].
  - 4.4. The algorithm of authentication of a user in the cat. training system [slide 4.3.1].
  - 4.5. The interface of the complex of programs in the mode of main button form: the basic diagno. softic. slide 4.3.
  - 4.6. The algorithm of filling of content of the adaptive electronic textbook on the basis of the inf. (semantic) model of a subject of studying [slide 4.4.1-4.4.2].
  - 4.7. The algorithm of extraction of information fragments of the adaptive means of training (electronic textbook) [slides 4.5.1-4.5.2].
  - 4.8. The algorithm of functioning of the adaptive electronic textbook jointly with the diagnostic module (realized the more precise definition of the level of statement of material) [slide 4.6.1-4.6.2].
  - 4.9. The interface of the adaptive electronic textbook in the mode of administrating: the review and modification of the parameters of the subjects of studying [slide 4.7.1].
  - 4.10. The interface of the adaptive electronic textbook in the mode of administrating: the review and modification of the parameters of units of the subject of studying [slide 4.7.2].
  - 4.11. The interface of the adaptive electronic textbook in the mode of administrating: the review and modif. of the para. of page of module of unit of the subject of studying [slide 4.7.4].
  - 4.12. The interface of the adaptive electronic textbook in the mode of administrating: the review and modif. of the para. of page of module of unit of the subject of studying [slide 4.7.5].
  - 4.13. The administrating of DB with the values of parameters of the para. CM block [slide 4.8.1].
  - 4.14. The administrating of DB with the values of parameters of CM of subject of training [slide 4.8.1].
  - 4.15. The interface of the adaptive electronic textbook in the mode of adaptive training: the textual representation of information fragment text [slide 4.9.1].
  - 4.16. The interface of the adaptive electronic textbook in the mode of adaptive training: the graphical representation of information fragment (flat scheme) [slide 4.9.2].
  - 4.17. The algorithm of functioning of the mode of administrating [slide 4.10].
  - 4.18. The basic diagnostic module [slides 4.10.1-4.10.2].
  - 4.19. The basic diagnostic module in the mode of diagno. [slide 4.12.1].
  - 4.20. The interface of the basic diagnostic module in the mode of diagnostics (the version for the carrying out of expresso diagnostics, without use of graphic images) [slide 4.12.2].
  - 4.21. The algorithm of functioning of the applied diagnostic module in the mode of diagno. of the question-answers structures of the methods of research of the individual features of the contingent of examinees [slides 4.13.1-4.13.2].
  - 4.22. The algorithm of functioning of the applied diagnostic module in the mode of diagno. of the individual features of the contingent of examinees [slides 4.14.1-4.14.2].
  - 4.23. The interface of the applied diagnostic module in the mode of diagnostics of the question-answers structures of the methods of color perception of Rabkin E.B. [slide 4.15.1].
  - 4.24. The interface of the applied diagnostic module in the mode of diagnostics of the color perception by means of the method of research of Rabkin E.B. [slide 4.15.2].
  - 4.25. The interface of the applied diagnostic module in the mode of administrating of the question-answers structures of the subtest of plane thinking by means of the eighth block of questions "Plane figures" of the method of res. of R. Amhaer [slide 4.16.1].
  - 4.26. The interface of the applied diagnostic module in the mode of diagnostics of the plane thinking by means of the eighth block of questions "Plane figures" of the method of research of Forster K.F.R. [slide 4.17.1].
  - 4.27. The interface of the applied diagnostic module in the mode of administrating of the question-answers structures of the subtest of figurative creativity by means of the method of research of Torrance E.P. [slide 4.17.1].
  - 4.28. The interface of the applied diagnostic module in the mode of diagnostics of the figurative creativity by means of the method of res. of Torrance E.P. [slide 4.17.2].
  - 4.29. The mathematical model of the spherical perimeter of Forster K.F.R. [slide 4.18.1].
  - 4.30. The features of a posteriori data of research of the achromatic and chromatic field of vision of examinee [slide 4.19.2].
  - 4.31. The interface of the applied diagnostic module in the mode of administrating of the question-answers structures of the method of research of the achromatic and chromatic field of vision of examinee by means of the computational perimetry: the parameters of the method of research [slide 4.19.1].
  - 4.32. The interface of the applied diagnostic module in the mode of administrating of the question-answers structures of the method of research of the achromatic and chromatic field of vision of examinee by means of the computational perimetry: the parameters of display [slide 4.19.2].
  - 4.33. The interface of the applied diagnostic module in the mode of administrating of the question-answers structures of the method of research of the achromatic and chromatic field of vision of examinee by means of the computational perimetry: the parameters of DB [slide 4.20.1].
  - 4.34. The interface of the applied diagnostic module in the mode of diagnostics of the achromatic and chromatic field of vision of examinee by means of the computational perimetry [slide 4.20.2].
  5. **The fifth scientific result. The statistical justification of the practical use of the received results (\*) [slides 5.1-5.6.2].**
    - 5.1. The scheme, reflecting the sequence of q.c.t. q.r.s. for the support of researches of the cycle of adaptive automated training [slide 5.1].
    - 5.2. The summary results of the statistical processing of a posteriori data of the experiment [slides 5.2.1-5.2.4].
    - 5.3. The results of the regression analysis [slides 5.3.1-5.3.3].
    - 5.4. The results of the discriminant analysis [slide 5.4.1].
    - 5.5. The own values for the canonical discriminant functions [slide 5.4.2].
    - 5.6. The results of the multidimensional scaling [slide 5.5.1].
    - 5.7. The results of the factorial analysis [slide 5.5.2].
    - 5.8. The dynamics of the indicators of efficiency (resultativity) of the technol. process of controlled formation of knowledge of trainees [slides 5.6.1-5.6.2].
    - 5.9. The note: \* recommended to acquaintance with reports on individual initiative SRW of "AUT CMT SFA" Vetrov A.N.
