THE FUNDAMENTAL SCIENTIFIC RESEARCHES BRANCH

“THEORY OF MILITARY MEDICINE” (“TMILM”)

OF “SEC “SFA CMT” OF “RA(M)S” N. A. ACAD. BURDENKO N.N.”

The developed “The fundamental scientific researches branch “Theory of military medicine”” (“TMILM”) treats to the fundamental scientific researches divisions of “The scientific-educational centre “System and financial analysis based on cognitive modeling technology” of “RA(M)S” named after acad. Burdenko N.N.” (“SEC “SFA CMT” of “RA(M)S” n. a. acad. Burdenko N.N.” – SEC) as the first SEC in the structure of “SIO “Academy of cognitive natural sciences”” (“SIO “ACNS””) as the add. component of the system of science and education of the modern country for the creation, distribution and use of the main and derivative scientific results of the cognitive modeling technology (CMT) (www.vetrovan.(spb.)ru) [see the fundamental scientific researches branches and departments of SEC]:

- 1) it is executed by the principle of “administrative-economy submission”;
- 2) works in the several main directions, which allow to provide the development of the fundamental main and derivative scientific results (my second report on SRW from 2006-2008(9) y. was submitted to “SPbSETU “LETI”” and “The Government of RF” for the translation, carrying out of int. action and receiving of “The Nobel prize”);
- 3) includes the several various main divisions:
I. “The fundamental scientific researches department “Theory of medicine and medical education in the armed forces”” (“TM and NEDUC in MF”) [*the fundamental scientific researches in the area “Theoretical military medicine”* – the theoretical bases of military medicine, theory of medical exercises about the war and army, theory of history of military medicine, theory of military medical education and training of personnel, theory of military medical politics, theory of military medical doctrines, theory of military medical science, theory of military-applied medical science, theory of military medical technics and technology, theory of medicine in the armed forces, theory of economics of military medicine and the cognitive modeling technology in the theoretical military medicine].

The fundamental scientific researches branches and departments of SEC allow to develop the main and derivative scientific results of CMT.
